Allcock's POROUS PLASTERS

Do you know that we have hundreds of letters from all parts of the world telling us of the wonderful cures these plasters have made? Do you know that none of them have the medicinal properties of Allcock's? Just put them to your nose and compare the fine aromatic odor of Allcock's with the smell of all others. ON THE TIP OF THE TONGUE

The Universalists don't intend to have the men and women of their church kept home from its services by the care of small children. As soon as fair weather comes it is proposed to establish a creche or day nursery in connection with the church. Here the young ones will be brought and taken care of and amused by the young ones of the church while the parents are attending divine service.

This knocks out another prop from in who always finds some excuse for not attending church. An ordinary sick man used to be able to let his wife go alone on the ground that he was too ill and couldn't get ready in time. Then the barber shop closed Sundays and that excuse faded away. Then some one had to stay home with the babies and as the average woman is willing to believe that her husband means it when he tells her she looks nice in her Sunday attire, she has always been willing to go to church and represent the whole family. The Universalists, however, intend to get those men in church and in consequence the babies are going to be taken care of at or near the place where services are held.

The young ladies who have volunteered to take care of the children will have their hands full. They will get some good lessons in diplomacy and learn to respect another's property, and they'll learn self-sacrifice when they complain that they have to tend babies at home all the week and would like to have sun days off.

Lord Beresford in Washington.

WASHINGTON, Feb. 22.—Lord Beresford, with his secretary and valet, reached Washington yesterday and will remain here until tomorrow. He sails from New York on Saturday on the Campania for England. As a special commissioner from the Associated Chamber of Commerce of Great Britain, his mission has been to inquire into British trade in China.

China's value in 1895, \$65,000,000, and this Great Britain gives 55 percent and the United States about 14 per cent.

"The United States trades there," Lord Beresford said, "in developing more

than any other nation, but it is mostly

in Manchuria and the north, and the goods do not appear as American goods mostly, but as British or German. The lack of development of the trade there

is due to lack of security."

Pure Food Bill Reported.

ALBANY, Feb. 22.—The public health committee of the assembly last evening created a decided sensation in legislative circles by reporting the pure food bill of Mr. F. Schmid in amended form with a new section, which is virtually the pure beer bill introduced by Senator Coogehall. The section added is inserted after the word "grain" of section 4b and reads, "None shall any substitute for hops or pure extracts of hops be used in the brewing of fermented liquors." Still another amendment increases the penalty for every violation committed from \$100 to \$1,000 in each instance.

An Opinion of the Letter.

LONDON, Feb. 22.—The Rome correspondent of The Times says: "Generally speaking the individual is regarded as a justified condemnation of Hecker doctrine. It would be erroneous to suppose that it condemns or either directly affects Cardinal Gibbons, Archbishop of Boston or the group of enlightened prelates who have so largely contributed to the spread of Roman Catholicism in the United States."

Such claims, he goes on, to remove the government's censure of ex-Hecker to the fact that it was aware that in a few days it would no longer be in office. He said he thought Senator Pierrepont would have done better to acknowledge frankly that this was the reason why no bills had been prepared.

In the Senate Count d'Almenas remained upon the attacks begun by James Monroe upon the general who were engaged in the war in Cuba. He complained that costs of sent out to pay the troops in Cuba had been returned to Spain intact and unopened, just as they had been sent out. In terms of special severity he criticised Captain Amundsen, the minister of marine.

Count d'Almenas then proceeded to rebuke the government, particularly the ministry of finance, for the wantonness of expenditure to the fact that it was aware that in a few days it would no longer be in office.

He said that the letter was written before the general's departure, and that the general had not even seen it.

Count d'Almenas deplored the attitude of the Spanish government, and demanded the government's censure.

The debate was adjourned without any report.

Marshal Martinez de Campos defended General Linares, who was in command of the Spanish troops at Santiago de Cuba, against the accusations of the government, against the charge of having bought the Count d'Almenas, and that the latter would not dare repeat such charges outside the country.

General Sagasta, the premier, who spoke amid increasing tumult, deplored the attitude of Count d'Almenas and demanded the government's censure.

The debate concluded by calling for the closure. The debate was adjourned.

The Utah Deadlock.

SALT LAKE CITY, Feb. 22.—The talk in connection with bribery in the legislature has generated bad feeling among the members. Before the joint session met and was held for the United States grand jury, the two sides had agreed to postpone the trial of the State's attorney and his co-defendants until March 2.

A Younful Forger.

BOSTON, Feb. 22.—Clarence Hill, the 16-year-old Hudson boy who was arrested last week by the United States authorities on a charge of using the mails in an attempt to fraudulently obtain postage stamps from a firm of stamp dealers, waived examination yesterday before United States Commissioner Fliske on the advice of his counsel and was held for the United States grand jury. The boy admits that he sent checks bearing fictitious names to pay for the stamps, but says he thought they would not be accepted. Among the forged checks found by the authorities was one bearing the name of Congressman L. D. Appling.

The debate was adjourned.

EXPRESSES AFFECTION FOR NATION.

Home Is Enthusiastic Over the Letter and Predicts It Will Produce an Immense Effect upon the Catholic Church of America.

ROME, Feb. 22.—The papal encyclical which has just been promulgated occupies five columns in the Observers Roma. It begins by lauding Cardinal Gibbons and the American Catholics and alludes to the many proofs of good will he has given them in the past. The pope wishes them to see in the present document another proof of his affection for America.

While he makes it clear that the letter is one of warning and correction with reference to the "Life of Father Hecker," his boldness carefully distinguishes between the doctrinal aspects of the new theories and questions of practical discipline.
